JOY OF TEN DAYS' LEAVE TO SOLDIER

What It Means to Sportsman to Be a Free Man; to Come and Go at Will.

PLEASURES OF OUTDOORS

By SYL.

Leave of absence from strenuous army routine is not the simplest thing on earth to obtain these days. Requests are based on "exceptional circumstances," and not for the purpose of satisfying any personal longings one may have to cet away from the "grind," which every twenty-four hours is wearing down "Kul-" and bringing it to its knees.

To simply say, "I am all in and aching for the smell of the resin balsam of green hills, the sound of tumbling brooks and the hum of a reel" would be to admit the "call of the wild" had got your goat. It would work about the ame as a gunshy dog in the field.

One would have to do a devil of a lot

f whistling to keep from cussing caths

as black as hades for all the satisfaction me might get out of it. The circum-tances of "leave" do not consider smells and angling" as exceptional, but o my mind they should be. To go a shing is truly exceptional, and the opportunity to go should be grasped as one the great opportunities of life if one to remain young and handsome and free from grouch and chronic indiges-

ing of two seasons without wetting a line I put the "exceptional circumstances" diand, oh, boy! ten days were granted right off the bat.

re was "something doing" afte "S. O. upmty ump" came through. It recalled the days of extreme activity over there," where one was on the tump continually up to the time the M. saw to it the streets were clearedumanity and petite patols.

Picture Time Table Troubles.

The first assault came on various pasnger agents or various railroads. I unt" had gone dippy hunting bargain ces with the Railroad Administration. nois was thought of, the North Woods Wisconsin, Michigan and of Maine nberry Lake and the Raquette Chain, our own beautiful Adirondacks, were reflected upon; but each and all was subject to downfall because of high travel cost or poor rail connections—and "ten days" was too short a time to stana. Whist and in Bridge

AUCTION BRIDGE.

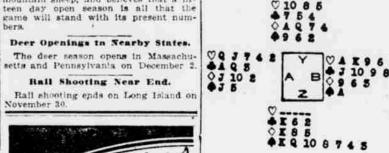

By R. F. FOSTER.

Among the whist players tenaces are regarded as about the most important factors in the game. They are equally useful in bridge, but only under certain conditions. The player who hugs a tenace until its usefulness is past is much more apt to lose than the one who sacrifices its chances to make sure of at east one trick. The difference in the value of a ten- tion:

OFF LONG BEACH BEST ace in the two games is due to the fact that in bridge two of the four players. The cod, or as local angiers like to they hold a tenace in either hand and The cod, or as local angiers like to term it at this time of the year, "the play accordingly; while a third player, poor man's Thanksgiving turkey," is now sitting on dummy's right, frequently in the waters off Long Island and the New Jersey coast. The most productive waters now are the inshore

bell Joseph Rindskopf of \$84 Tiffany street, Bronx, said that of sixty-eight seed landed fifty of them weighed over twenty pounds each. The prize fish weighed twenty-six pounds. Twenty-six men fished. When the Rosabell arrived on the grounds Capt. George Wilson prepared to eat his breakfast, but the on the grounds Capt. George Wilson prepared to eat his breakfast, but the cries of "Gaff!" were so sumerous he had to put it off until a later hour.
"How those cod did fight!" says Rindskopf, which adds weight to the testimony of Dr. Benjamin M. Briggs, players in the Thrusday night cames at the Knickerbocker puts it. "Some players like to save their tenaces for Dext week." sure trick at the head of a suit may be players like to save their tenaces for next week."

When every trick is important an immediate lead from the strongest suit in the hand is usually the safe play, whether it is a tenace suit or not. Here is a hand that went the round of seven CODT. Wyo., Nov. 16 -Nate P. Wilson, tables and offered two such openings. both of which were taken advantage of:

The bid at some tables went to four spades over four hearts, and at others it stayed at hearts, one table going to

Tenace Openings Won.

At one of the tables at which the concase Z went game, as B came back with unexpected ending. It is a fine examp the spade suit in both cases, and Z got of problem construction. The distribu-a club discard on the fourth diamond. Itom is: Black men on 10, 11, 13 and At one table A thought it safer to 18. White men on 23, 24, 27 and 28 make every trick he could and ace of clubs. B playing the nine en-decouraged him to continue with the queen. Stirred move is the key: When Z won with the king and led the Black. White Black trump B was able to lead two winning clubs, and the jack of trumps in A's lo-14 28-24 hand could not be caught. This saved 22-26 23-19 the game, although A led right up to the king of his tenace suit.

At one table at which the hand was played at five hearts. Y had the lead.

played at five hearts, Y had the lead, as moves.

A had first named the suit. Instead of making his sure trick first, which would 505 are: Francis Beech, N. S. Brack.

its hand? He has to meld before he send self-directed envelopes. traws from the pack. The old queen is good for the greater meld. H. W. S. says: Playing two hand, A 20 and calls out. B bets he must win

nother trick to make the meld good.

B is wrong. The trick taken made the following meld good. C. K. says: Playing two hand, the melds being all up. A bets the second band must head every trick if he can. B bets only when trumps are led.

V. N. Y. asks what is meant by a double deck as differing from a single deck at pinachle.

A la correct.

All pinochle packs are double, in the ense that they contain duplicates of all up the duplicates, down to the sevens represent 612. Here is the solution : and eights, under a single carton, and sell it as a pinochle pack.

B. F. G. says: We are playing three hand, keeping the scores on the minus and plus method. At the end the results show that B is 560 plus, A is 160 R. R. Witherspeon. minus and C is 400 minus. C inalets that the two losers simply pay B, and that 400 is the most C can lose. B maintains that C also owes A something start together and to proceed at upon are such scores usually adjusted?

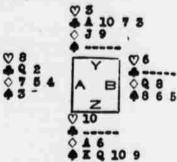

How are such scores usually adjusted?

 $+240 \\ -720$ +720 +260 -960 -480 -1200A has won 240 from C and lost 720 to B. C has lost to A the difference be-\$600, while B has gained 560.

as he saw dummy held the best spade It is not often that one sees a hand in which two different tenace openings will win against two different declarations.

PROBLEMS FOR SUN READERS

As W. N. Hill eays in his solution "Capt. Roy's problems are always inter-esting and sometimes difficult," and in fact bridge problem No. 506 was a pretty example of the importance of placing the lead. Here is the distribu-

Clubs are trumps and Z leads. Yaut Z want all seven tricks. The solution is for Z to lead the spade, which Y trumps, leading a heart. This Z wins and leads another spade, which

However, all the baits have been innocked time and again by anglers. The reason was they had tried them fully. Says that men dig their graves with their teeth. That's why he took out and found them to be useless and naturally blamed it on the lure, since it was advertised as such. But these angiers did not consider the bass. Here is where the element of failure or success issues from.

Hass a Moody Fish.

The bass is a moody fish. Some days he will feed right under your lure and some days he will attack anything, you offer with the tenacity of a buildog. Another problem we must consider in using artificial lures is the weather.

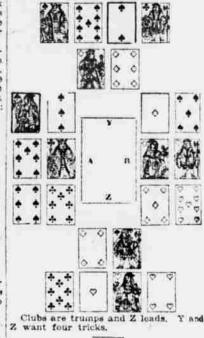

Taking them in order it shapes up to the following: The seasons, weather.
